

Review

indulgence evening

For those of you that didn't make the Indulgence Evening on 11th Feb, look what you missed!!

On entrance you were treated to a chilled glass of white wine, a perfectly chambréd glass of red or a choice of fruit juices together with nibbles that you could enjoy while sitting down to look through the programme and the treats that were available during the evening.

The choice was amazing; a luxury manicure or maybe you got your feet out for a pedicure. The Paraffin Hand waxes were extremely popular. Numerous massages were available: Hand, Feet, Face, Swedish, Aromatherapy, Indian head the list goes on. The eyebrow threading was fascinating. Waxing, Reflexology, Spray tan and House of Colour talk: What a wonderful choice! Add to that the very tempting aroma of freshly filtered coffee and homemade cakes and you really were having an Indulgent Evening!

Clipso Hair salon was on site to offer advice on Haircare & Styling as was Fuller Life advising on how to help shift those few pounds that we may want to lose. Beautiful individually made jewellery was available to purchase and a photographic stall offering special celebratory sittings; all this combined with help and advice on skincare products went towards making the evening so special. A huge thank you to everyone that participated.

If you missed this one look out for the next one! All future events are on the Website under PA "Calendar of events" We are thinking of running a girls pamper session to include manicures, pedicures and eyebrow threading...let me know if your daughter/her friends would be interested in something like this in the future.
