The online safety curriculum at WGGS

Online safety education is delivered principally through PACE and Computing lessons. The school has devised a curriculum which allows progression, and covers a broad range of online safety topics. This curriculum:

- Is based on the curriculum model found in 'Education for a Connected World'.
- Takes note of the advice in the DfE guidance document 'Teaching online safety'
- Meets the statutory requirements for Health and Relationships education.

The curriculum is built around the eight strands found in 'Education for a connected world'.

	Self-image and identity	Online relationships	Online reputation	Online bullying	Managing online information	Health, wellbeing and lifestyle	Privacy and security	Copyright and ownership
Y7	The pressures created by social media			Cyber-bullying – what it is and how to report it		A healthy media balance	Passwords and protecting yourself online	Introduction to copyright
